

In the Title:

Please amend the Title as follows:

METHOD AND APPARATUS FOR TREATING LIQUID WASTE

In the Specification:

Please amend Paragraph number 47 as follows:

[0047] Alternatively, if the resulting clean fuel gas will not be used productively, a thermal oxidizer system may be provided, as illustrated in FIG. 1, to combust the gas. The thermal oxidizer system includes a thermal stack 115 with exhaust pipe 116 and a conventional low NO_x burner 113 that generates flame 114. Burner 113 is mounted at the bottom of the thermal stack 115.
